

7/13/2020

Dear Client,

As temperatures rise, we are letting you know that certain medicine may make you more sensitive to heat. These include:

<u>Trade Name</u>	<u>Generic Name</u>
Abilify	aripiprazole
Clozaril/Fazaclo	clozapine
Fanapt	iloperidone
Geodon	ziprasidone
Invega/Sustenna	paliperidone
Latuda	lurasidone
Risperdal/Consta	risperidone
Saphris	asenapine
Seroquel	quetiapine
Zyprexa	olanzapine
Haldol	haloperidol
Loxitane	loxapine
Mellaril	thioridazine
Navane	thiothixene
Prolixin	fluphenazine
Serentil	mesoridazine
Stelazine	trifluoperazine
Thorazine	chlorpromazine
Trilafon	perphenazine

If you take one of these, or if you have a medical condition that makes it hard for you to tolerate heat, you can ask for a reasonable accommodation. A reasonable accommodation is a type of help that we can provide you. It can include something like air conditioning.

You can request a reasonable accommodation by filling out the attached form.

If you take any of the above listed medications, please include a copy of your prescription or a photo of the medicine bottle with your name on it and/or a letter from your doctor with the request. If you have a medical condition that makes it hard for you to tolerate heat, please include a letter from your doctor.

If you have any questions, please contact your on-site director.
